# April – June 2017 Health Library Lectures

Thursday, April 13 • 7:00 pm

## **Why Weight?: Advances in Obesity Treatment**

John Magaña Morton, MD

More than one third of US adults have obesity, which is related to heart disease, stroke, type 2 diabetes and certain types of cancer, some of the leading causes of preventable death. This talk will address advances in understanding and treating obesity.

Thursday, May 11 • 7:00 pm

## **Chest Pain: The Many Causes of Women's Heartaches**

Abha Khandelwal MD, Eryn Bryant, MSN, NP-C, Valerie Hoover, PhD

The clinical team from the Stanford Women's Heart Health Clinic will address the many reasons why women can have chest pain.

Thursday, May 18 • 7:00 pm

## **HICAP Presents New to Medicare**

Turning 65? Confused about Medicare?

Let HICAP (Health Insurance Counseling & Advocacy Program) of San Mateo help you make informed decisions about your federal health insurance coverage.

A HICAP state-registered counselor-community educator will help recipients navigate the "Medicare Maze" by explaining the different parts of Medicare (A, B, C & D), costs and benefits, enrollment periods, and coordination of benefits.

HICAP is a private nonprofit funded by the state and federal governments to provide free and unbiased information on Medicare.

Registration strongly encouraged.

This program will not be webcast.

Thursday, May 25 • 7:00 pm

## **Functional Neurological Disorder**

Kim Bullock, MD and  
Juliana Lockman, MD

With functional neurological symptom disorder, a patient experiences neurological symptoms inconsistent with a neurological disease. Doctors Bullock and Lockman will discuss this little known but common diagnosis.

Thursday, June 15 • 7:00 pm

## **Age Related Macular Degeneration: Current Treatments and Future Therapies**

Diana V. Do, MD

Age Related Macular Degeneration (AMD) affects millions of people and can lead to vision loss. Prompt treatment for the "wet form" of AMD is important to prevent permanent vision changes. An update on current treatments and future therapeutic areas will be discussed.

**Unless otherwise noted,  
all lectures are held at the  
following location:**

Stanford Health Library  
Hoover Pavilion, Suite 201  
211 Quarry Rd.,  
Palo Alto, CA 94304

**No fee.**

**To register call 650.498.7826**

## Ask Us

Our research service is free and available to everyone. When you cannot come into the library to do the research yourself, we will be happy to look for the answers to your questions and send the results to you. Just call the library and request an information packet, and we will do the rest. If you prefer to reach us via email, that's fine too!

**All research is free of charge.**

Call us at **650.725.8400**  
or **800.295.5177** or email us at  
[healthlibrary@stanfordhealthcare.org](mailto:healthlibrary@stanfordhealthcare.org)

Unless otherwise noted, all lectures can be viewed online as a live webcast at the following url: <http://tinyurl.com/shcwebcast>
